SUMMARY

QA Engineer with 5+ years of experience in manual and functional testing of web and mobile applications. Currently responsible for test strategy, test design, and release quality at BestComp Group.

Core expertise in functional, regression, smoke, sanity, cross-browser, mobile, and API testing, backed by solid requirements analysis, structured test documentation, and defect management in Jira. Works closely with developers and product teams in Agile/Scrum environments to catch issues early and ship reliable releases.

SKILLS

Testing Types: Functional, Non-functional, Regression, Smoke, Sanity, End-to-End, UI/UX, Cross-browser, Mobile, API Testing, Data Validation

Test Design & Methods: Black-box Testing, White-box Testing, Test Planning, Test Case Design, Requirements Analysis

QA Documentation: Test Plans, Test Cases, Bug Reports, Defect Prioritization (Severity / Priority)

Tools: Jira, Confluence, Postman, Swagger, Chrome DevTools, Git

Methodologies: Agile, Scrum, SDLC, STLC, Bug Life Cycle

EXPERIENCE

Middle QA Engineer — BestComp Group
Baku, Azerbaijan | Jan 2024 – Present

- Develop and execute test strategies and test plans for web and mobile applications, raising overall product quality.
- Design and run functional, regression, smoke, and sanity test cases, reducing the number of defects reaching production.
- Analyze business and user requirements and translate them into clear, traceable test cases.
- Perform API testing with Postman and Swagger and validate data to verify backend logic and data integrity.
- Take part in Scrum ceremonies (sprint planning, daily stand-ups, retrospectives) and introduce manual testing best practices that streamline the team's QA workflow.

Middle QA Engineer — Alventures
Baku, Azerbaijan | Jun 2023 – Jan 2024

- Performed end-to-end testing of applications ahead of product releases, contributing to successful launches.
- Reported and tracked defects in Jira, working closely with developers to resolve them before release.
- Maintained a well-organized test case library aligned with changing application requirements.
- Prioritized defects by severity and end-user impact, speeding up issue resolution.

Junior QA Engineer — Start Interactive Agency
Baku, Azerbaijan | Jun 2021 – Jun 2023

- Performed manual functional and UI testing of client websites and web applications before delivery.
- Carried out cross-browser and responsive testing across desktop and mobile devices.
- Wrote test cases and clear bug reports in Jira, verifying fixes through retesting and regression checks.
- Collaborated with developers and project managers to meet client requirements and release deadlines.
